## ABOUT US

We are feeling very happy to introduce our new venture TACONA BATH SOLUTION with a wide range of Bathware Products.

Tacona is the leading manufacturer & ISO certified World Class Sanitary Ware Products having International Standards - CE (European Standards), SASO (KINGDOM OF SAUDI ARABIA) at 'MORBI' Gujarat. Our products are known for their unparalleled quality, finishing, design, and durability.

We aim to do extremely well in our principal values i.e., to be the public priority company for our treasured consumers, clientele, sponsors, suppliers, advertising and branding partners, and our entire Tacona Bath team, we give precedence to them above all. We are focussed to become one of the greatest brand names as a whole in the scope of the sanitaryware industry by spreading out our market presence and supply channels all over the world.

# TECHNICAL SPECIFICATION

## TOILET BOWL WITHOUT AN EDGE

The rimless design is standard for all toilets. It means that the toilet bowls do not have any difficult-to-reach places in which dirt and bacteria can accumulate. This makes it possible to clean the toilet far more quickly, easily and thoroughly. Sonferry has produced rimless toilet bowls since 2018, and has already sold over eight million of them around the world.

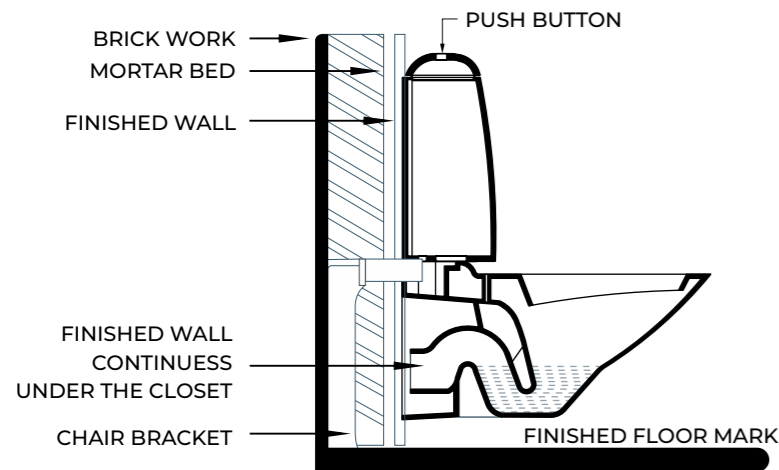

TACONA  
DESIGN

TRADITIONAL  
DESIGN

## ONE PIECE WATER CLOSET

1. If the wall is going to be plastered for a thickness of 12 mm and a tile thickness of 6-7 mm, the projection of the bolts from the finished wall should be 66 mm only.

2. If the thickness of plastering and tile is less than the dimensions mentioned above, the bolts that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.

3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface of the finished floor is 320mm.

ONE-PIECE TOILETS are able to be installed in bathrooms with less square footage since they are lower to the floor they are easier to keep clean. As with most equipment, the fewer separate parts that comprise it, the more durable it proves to be. Installing a ONE-PIECE TOILET is generally easier.
